

“BITAC is a must attend event for all F&B professionals!” ~ Gladys Mouton Di Stefano

BITAC provides an intimate atmosphere for you to connect with prominent executives in the industry to exchange ideas and information that is of instant value. This invitation only event has earned a highly acclaimed reputation for bringing together the top echelon of both purchasing decision makers and suppliers while controlling the number of attendees to maximize everyone's productivity and overall experience.

BITAC was rated “The Best” or “One of the Best” events by 92% of attendees.

BITAC does not resemble a traditional conference, networking event, or trade show in any sense. Based on your product needs, BITAC schedules you to meet with suppliers that you may not have thought to visit at a typical trade show and learn about products that you may not have known existed. Orchestrated like “speed meetings”, these 15 minute uninterrupted sessions are focused on your needs to explore solutions. This fast paced environment will allow you to accomplish more in 2+ days than you could in weeks worth of research outside this unique forum.

BITAC is an incredible opportunity you can't miss. The business and social events feed off each other to build lasting relevant, strategic, personal and professional relationships that can not be done over email or phone. It is the most productive, cost-effective, and time-saving method to build knowledge and contacts.

Leading executives are praising the unique BITAC formula:

“The calendar of events, structure of the Conference as well as the talent of the attendees fosters an incredibly productive level of interaction. It is the optimal size and knowledgeable representation with true discussion on the hot topics facing the industry.”

Sue Morgan, Vice President of Franchise F&B InterContinental Hotels Group

“BITAC F&B is a great use of your time; you don't have to walk miles in a tradeshow trying to connect with the right person. You put me in touch with the key contact of 20 new or existing suppliers. You create a great network.”

Marie May, Senior Project Manager F&B Best Western International

“What a refreshing approach to sourcing product and materials, meeting one-on-one with no pressure or interruptions is appreciated and a great alternative to fighting the crowds on the trade show floors.”

Quentin Incao, Director of Operations MTM Luxury Lodging

“I was pleasantly surprised by the warmth, content and exceptional quality of the Staff and Attendees. Being able to network one on one with the movers and shakers of the Hospitality F&B Industry was a wonderfully exciting experience-even for an old timer like myself.”

Bernard Otis, Director, Hospitality/Gaming/Resort Division Kameron & Company, Inc.
